Hi Panah,

Thanks for helping Paul with the questions that Northern Sierra has with regard to the emergency episode plan. It will be great to have a call to discuss with you about the I-SIP. Paul will be on vacation next Monday and Tuesday, but the rest of us will be available. The best time that will work for us are Tuesday 11-12 or Monday between 9-11.

Thanks,
Jin

Hi Jin,

I'm back from leave, and Paul and I are in touch about the follow-up questions you mentioned. Once I understand the thinking behind them a bit better, I'll be able to work on answers.

Would you like to have a phone call to touch base generally about the I-SIP? I could update you on my progress so far, we could talk about the status of the emergency episode plans, and I can tell you about a potential future information request that is coming up around the country. We can also discuss any other topics you'd like. We have a lot of availability on Monday and Tuesday of next week, if you're available then.

Thanks a lot!
Panah

Hi Panah and Rory,

It was nice meeting and talking with both of you yesterday. I also appreciate all your help, and look forward to working with you in the future. As part of the I-SIP, we have been working with the 7 districts in developing the emergency episode plans. Most of them are making good progress, and we expect to receive the draft plans from several districts soon. But a couple of them still have some questions such as the geographical scope of the plan, emissions data to be included, and the requirements of Industrial Abatement Plans. We will forward their questions to you for clarification if needed. Thanks in advance for your help. I also think it will be great if we get in touch regularly.

Thanks,
Jin

Hi Jin,

It was great to meet you yesterday and I'm sorry we didn't get very much time to talk. Thank you so much for coming by. I have really appreciated how responsive you've been to the questions I've had so far. I know I will have more questions in the future, so thank you in advance as well.

I've been working on the I-SIP proposal, going through what was analyzed in the previous submittals and what was submitted for 2015 ozone. I'm working through the different submittal sections one by one, using Rory's past TSDs as a basis for drafting a proposed approval notice.

I know that yesterday there was a lot of discussion about regular check-ins. I will be on leave next week, but I'd be happy to touch base with you after I'm back, if you'd like.

Best,
Panah
